ENGINEERING GEOLOGY

www.elsevier.com/locate/enggeo

Subject Index Volume 64

Advection
Clay; Clay–sand mixtures; Compaction; Unsaturated; Gas; Capillarity; Break-through 273
Anaerobic conditions
Two-phase flow; Clays; Methanogenic bacteria; Sulfate-reducing bacteria; Radioactive waste disposal 287
Äspö island
Numerical modeling; Tunneling; Groundwater inflows; Inner-moving boundaries; Fractured rocks 369
ATLAS
THM test; Heat generation 309

Backanalysis
Laboratory test; Unsaturated soil; Unsaturated flow; Temperature; Swelling clay 91
Bentonite
Suction; Psychrometer; Osmotic suction; Triaxial; Strength 147
Bentonite–sand buffer
Engineered geological barriers; Clay barriers; Pressurized moisture influx; Borehole emplacement; Hygro-thermal effects 157
Boom clay
Gallery excavation; Bounding plasticity; Numerical modelling; Hydraulic perturbation 217
Borehole emplacement
Engineered geological barriers; Clay barriers; Pressurized moisture influx; Hygro-thermal effects; Bentonite–sand buffer 157
Bounding plasticity
Gallery excavation; Boom clay; Numerical modelling; Hydraulic perturbation 217
Break-through
Clay; Clay–sand mixtures; Compaction; Unsaturated; Gas; Capillarity; Advection 273
Buffer
Rock; Clay; Thermo–hydro–mechanical analyses; Diffusion 297

Calcite healing
Direct shear; Shear machine; Natural discontinuity; Granodiorite; High normal stress; Stress path; Thin section; Mean plane of joint; Constitutive modelling 117
Capillarity
Clay; Clay–sand mixtures; Compaction; Unsaturated; Gas; Advection; Break-through 273
Chemo-plasticity
Clays; Natural analog; Nuclear waste disposal; Re-smectitization 195
Clay
Clay–sand mixtures; Compaction; Unsaturated; Gas; Capillarity; Advection; Break-through 273
Buffer; Rock; Thermo–hydro–mechanical analyses; Diffusion 297
Clay barriers
Engineered geological barriers; Pressurized moisture influx; Borehole emplacement; Hygro-thermal effects; Bentonite–sand buffer 157
Clays
Constitutive modelling; Temperature effects; Effects of over consolidation ratio (OCR); Elastoplasticity; Plastic mechanisms 135
Chemo-plasticity; Natural analog; Nuclear waste disposal; Re-smectitization 195
Two-phase flow; Methanogenic bacteria; Sulfate-reducing bacteria; Radioactive waste disposal; Anaerobic conditions 287
Clay–sand mixtures
Clay; Compaction; Unsaturated; Gas; Capillarity; Advection; Break-through 273
Compaction
Clay; Clay–sand mixtures; Unsaturated; Gas; Capillarity; Advection; Break-through 73
Constitutive modelling
Direct shear; Shear machine; Natural discontinuity; Calcite healing; Granodiorite; High normal stress; Stress path; Thin section; Mean plane of joint 117
Clays; Temperature effects; Effects of over consolidation ratio (OCR); Elastoplasticity; Plastic mechanisms 135
Constitutive relationship
Engineered clay barriers; Suction control; Physico-

chemical effects; Volume change reversibility; Critical swelling curve 233
Critical swelling curve
Engineered clay barriers; Suction control; Physico-chemical effects; Volume change reversibility; Constitutive relationship 233

Diffusion
Buffer; Rock; Clay; Thermo–hydro–mechanical analyses 297
Direct shear
Shear machine; Natural discontinuity; Calcite healing; Granodiorite; High normal stress; Stress path; Thin section; Mean plane of joint; Constitutive modelling 117
Durability
Facies; Strength; Roof stability; Floor heave; Geodurability classification 19

Effects of over consolidation ratio (OCR)
Clays; Constitutive modelling; Temperature effects; Elastoplasticity; Plastic mechanisms 135
Elastoplasticity
Clays; Constitutive modelling; Temperature effects; Effects of over consolidation ratio (OCR); Plastic mechanisms 135
Engineered clay barriers
Suction control; Physicochemical effects; Volume change reversibility; Critical swelling curve; Constitutive relationship 233
Engineered geological barriers
Clay barriers; Pressurized moisture influx; Borehole emplacement; Hygro-thermal effects; Bentonite–sand buffer 157
Equotip Hardness Tester
Volcanic breccia; Material property; Grain size distribution; Stereology 1

Facies
Strength; Durability; Roof stability; Floor heave; Geodurability classification 19
Floor heave
Facies; Strength; Durability; Roof stability; Geodurability classification 19
Former manufactured gas plants
Site and waste characterization; Semi-volatile organic wastes 317
Fractured rocks
Numerical modeling; Tunneling; Groundwater inflows; Inner-moving boundaries; Äspö island 369

Gallery excavation
Boom clay; Bounding plasticity; Numerical modelling; Hydraulic perturbation 217
Gas
Clay; Clay–sand mixtures; Compaction; Unsaturated; Capillarity; Advection; Break-through 273
Gas migration
Soil heterogeneity; Preferential paths 251
Geodurability classification
Facies; Strength; Durability; Roof stability; Floor heave 19
Giant volcanic landslide
Slump; Landslide hazard; Soft rocks; Weathered rocks 41
Grain size distribution
Volcanic breccia; Material property; Stereology; Equotip Hardness Tester 1
Granodiorite
Direct shear; Shear machine; Natural discontinuity; Calcite healing; High normal stress; Stress path; Thin section; Mean plane of joint; Constitutive modelling 117
Groundwater inflows
Numerical modeling; Tunneling; Inner-moving boundaries; Fractured rocks; Äspö island 369

Heat generation
ATLAS; THM test 309
High normal stress
Direct shear; Shear machine; Natural discontinuity; Calcite healing; Granodiorite; Stress path; Thin section; Mean plane of joint; Constitutive modelling 117
Hydraulic perturbation
Gallery excavation; Boom clay; Bounding plasticity; Numerical modelling 217
Hygro-thermal effects
Engineered geological barriers; Clay barriers; Pressurized moisture influx; Borehole emplacement; Bentonite–sand buffer 157

Inner-moving boundaries
Numerical modeling; Tunneling; Groundwater inflows; Fractured rocks; Äspö island 369

Laboratory test
Backanalysis; Unsaturated soil; Unsaturated flow; Temperature; Swelling clay 91
Landslide
Topple; Slide; Nepal; Siwalik Group; Siwalik Hills 339

Landslide hazard
Giant volcanic landslide; Slump; Soft rocks; Weathered rocks 41
Landslides
Probability; Runout behavior; Vulnerability; Risk 65
Sikkim; Precipitation; Weathering; Rock joints 351

Material property
Volcanic breccia; Grain size distribution; Stereology; Equotip Hardness Tester 1
Mean plane of joint
Direct shear; Shear machine; Natural discontinuity; Calcite healing; Granodiorite; High normal stress; Stress path; Thin section; Constitutive modelling 117
Methanogenic bacteria
Two-phase flow; Clays; Sulfate-reducing bacteria; Radioactive waste disposal; Anaerobic conditions 287
Multiphase flow
Unsaturated soil; Suction; Numerical modelling 179

Natural analog
Chemo-plasticity; Clays; Nuclear waste disposal; Re-smectitization 195
Natural discontinuity
Direct shear; Shear machine; Calcite healing; Granodiorite; High normal stress; Stress path; Thin section; Mean plane of joint; Constitutive modelling 117
Nepal
Landslide; Topple; Slide; Siwalik Group; Siwalik Hills 339
Nuclear waste disposal
Chemo-plasticity; Clays; Natural analog; Re-smectitization 195
Numerical modeling
Tunneling; Groundwater inflows; Inner-moving boundaries; Fractured rocks; Äspö island 369
Numerical modelling
Unsaturated soil; Suction; Multiphase flow 179
Gallery excavation; Boom clay; Bounding plasticity; Hydraulic perturbation 217

Osmotic suction
Bentonite; Suction; Psychrometer; Triaxial; Strength 147

Physicochemical effects
Engineered clay barriers; Suction control; Volume change reversibility; Critical swelling curve; Constitutive relationship 233
Plastic mechanisms
Clays; Constitutive modelling; Temperature effects; Effects of over consolidation ratio (OCR); Elastoplasticity 135
Precipitation
Landslides; Sikkim; Weathering; Rock joints 351
Preferential paths
Soil heterogeneity; Gas migration 251
Pressurized moisture influx
Engineered geological barriers; Clay barriers; Borehole emplacement; Hygro-thermal effects; Bentonite–sand buffer 157
Probability
Landslides; Runout behavior; Vulnerability; Risk 65
Psychrometer
Bentonite; Suction; Osmotic suction; Triaxial; Strength 147

Radioactive waste disposal
Two-phase flow; Clays; Methanogenic bacteria; Sulfate-reducing bacteria; Anaerobic conditions 287
Re-smectitization
Chemo-plasticity; Clays; Natural analog; Nuclear waste disposal 195
Risk
Landslides; Probability; Runout behavior; Vulnerability 65
Rock
Buffer; Clay; Thermo–hydro–mechanical analyses; Diffusion 297
Rock joints
Landslides; Sikkim; Precipitation; Weathering 351
Roof stability
Facies; Strength; Durability; Floor heave; Geodurability classification 19
Runout behavior
Landslides; Probability; Vulnerability; Risk 65

Semi-volatile organic wastes
Site and waste characterization; Former manufactured gas plants 317
Shear machine
Direct shear; Natural discontinuity; Calcite healing; Granodiorite; High normal stress; Stress path; Thin section; Mean plane of joint; Constitutive modelling 117
Sikkim
Landslides; Precipitation; Weathering; Rock joints 351
Site and waste characterization
Former manufactured gas plants; Semi-volatile organic wastes 317
Siwalik Group
Landslide; Topple; Slide; Nepal; Siwalik Hills 339
Siwalik Hills
Landslide; Topple; Slide; Nepal; Siwalik Group 339

Slide
Landslide; Topple; Nepal; Siwalik Group; Siwalik Hills 339
Slump
Giant volcanic landslide; Landslide hazard; Soft rocks; Weathered rocks 41
Soft rocks
Giant volcanic landslide; Slump; Landslide hazard; Weathered rocks 41
Soil heterogeneity
Preferential paths; Gas migration 251
Stereology
Volcanic breccia; Material property; Grain size distribution; Equotip Hardness Tester 1
Strength
Facies; Durability; Roof stability; Floor heave; Geodurability classification 19
Bentonite; Suction; Psychrometer; Osmotic suction; Triaxial 147
Stress path
Direct shear; Shear machine; Natural discontinuity; Calcite healing; Granodiorite; High normal stress; Thin section; Mean plane of joint; Constitutive modelling 117
Suction
Bentonite; Psychrometer; Osmotic suction; Triaxial; Strength 147
Unsaturated soil; Multiphase flow; Numerical modelling 179
Suction control
Engineered clay barriers; Physicochemical effects; Volume change reversibility; Critical swelling curve; Constitutive relationship 233
Sulfate-reducing bacteria
Two-phase flow; Clays; Methanogenic bacteria; Radioactive waste disposal; Anaerobic conditions 287
Swelling clay
Laboratory test; Backanalysis; Unsaturated soil; Unsaturated flow; Temperature 91

Temperature
Laboratory test; Backanalysis; Unsaturated soil; Unsaturated flow; Swelling clay 91
Temperature effects
Clays; Constitutive modelling; Effects of over consolidation ratio (OCR); Elastoplasticity; Plastic mechanisms 135
Thermo–hydro–mechanical analyses
Buffer; Rock; Clay; Diffusion 297
Thin section
Direct shear; Shear machine; Natural discontinuity; Calcite healing; Granodiorite; High normal stress; Stress path; Mean plane of joint; Constitutive modelling 117
THM test
ATLAS; Heat generation 309
Topple
Landslide; Slide; Nepal; Siwalik Group; Siwalik Hills 339
Triaxial
Bentonite; Suction; Psychrometer; Osmotic suction; Strength 147
Tunneling
Numerical modeling; Groundwater inflows; Inner-moving boundaries; Fractured rocks; Äspö island 369
Two-phase flow
Clays; Methanogenic bacteria; Sulfate-reducing bacteria; Radioactive waste disposal; Anaerobic conditions 287

Unsaturated
Clay; Clay–sand mixtures; Compaction; Gas; Capillarity; Advection; Break-through 273
Unsaturated flow
Laboratory test; Backanalysis; Unsaturated soil; Temperature; Swelling clay 91
Unsaturated soil
Laboratory test; Backanalysis; Unsaturated flow; Temperature; Swelling clay 91
Suction; Multiphase flow; Numerical modelling 179

Volcanic breccia
Material property; Grain size distribution; Stereology; Equotip Hardness Tester 1
Volume change reversibility
Engineered clay barriers; Suction control; Physicochemical effects; Critical swelling curve; Constitutive relationship 233
Vulnerability
Landslides; Probability; Runout behavior; Risk 65

Weathered rocks
Giant volcanic landslide; Slump; Landslide hazard; Soft rocks 41
Weathering
Landslides; Sikkim; Precipitation; Rock joints 351
